12<sup>th</sup> International Fluid Power Conference

# Fluid Power Future Technology!

March 9 - 11, 2020 in Dresden

# INVITATION

---

The 12<sup>th</sup> International Fluid Power Conference (12<sup>th</sup> IFK) will be held in Dresden from March 9 to 11, 2020. The IFK is one of the world's most significant conferences for experts on fluid-mechatronic systems. The accompanying exhibition provides information on innovations in systems and products. As the 12<sup>th</sup> IFK particularly addresses fluid power users, manufacturers and researchers, the exhibition offers an attractive platform for product presentation and networking with national and international experts. Following the great success from the 8<sup>th</sup> and 10<sup>th</sup> IFK in Dresden the exhibition will similarly be placed in the center of the conference building. This location directly between the session rooms guarantees an easy access for visitors. During the entire conference period, snacks and drinks will be served between the sessions in the exhibition area. The exhibition will be opened with a "Get-

Together event" in the evening of March 9, 2020. To present your company at the 12<sup>th</sup> IFK following possibilities are available:

- › Renting a freely customizable modular stand construction system
- › Using own stand systems or further individual stand system solutions
- › Ordering advertising space and poster boards

Did we spark your interest?

Then register your stand, poster or advertising now. You will find further information as well as all necessary forms for registration on our homepage at: [www.ifk2020.com/exhibition](http://www.ifk2020.com/exhibition).

The exhibition team will be happy to answer any questions you may have at any time. We are looking forward to welcoming you in Dresden in March 2020!

## EXHIBITION OPTIONS

### STAND AREA\*

**240**

[€/m<sup>2</sup>\*\*]

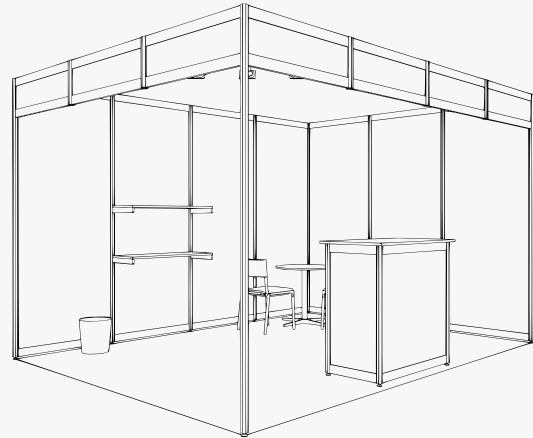

- › Provision of stand space
- › 1 power outlet (230 V, 16 A, 50 Hz)

### SYSTEM STAND\*

**320**

[€/m<sup>2</sup>\*\*]

- › STAND AREA included
- › Aluminium frame construction
- › Carpet and lightning
- › 1 lockable info counter
- › 1 round table, 2 chairs
- › 2 wall mounted shelf boards
