

## Press Release - Exhibition of the 12<sup>th</sup> International Fluid Power Conference

12<sup>th</sup> International Fluid Power Conference  
March 9-11, 2020 in Dresden

**12iFK**

The 12<sup>th</sup> International Conference on Fluid Power (IFK) will be held in Dresden, Germany on March 9-11, 2020. The IFK is one of the world's most significant scientific conferences on fluid power control technology and systems. This time it will be devoted to discuss topics with the theme "Fluid Power – Future Technology!"

For more than 20 years, the exhibition has provided an excellent meeting-point for professional exchange between scientists, users and manufacturers on an international level. It offers an unique opportunity to network with a large number of experts from the fluid power branch and to find out more about innovative products and system solutions.

The 12<sup>th</sup> IFK exhibition will be opened as a part of a "get-together" event on March 9, 2020 in the International Congress Center Dresden (ICC). Visitors will be able to access it starting from the following days of the conference. Take the chance to get informed about the latest innovative products and system solutions as well as to establish contact with numerous experts of the fluid power technology industry and to expand your network.

We warmly invite you to present your technologies and exchange professional experiences. We look forward to welcoming you to the 12th IFK in Dresden.
